### EXAMINER'S AMENDMENT

1. The drawings were received on July 05 2007. These drawings are acceptable.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Brian S. Myers on September 11, 2007.

The application has been amended as follows:

In line 3 of both claims 1 and 7, the word "method" has been changed to "transmitter" since claims 1 and 7 are apparatus claims.

3. The following is an examiner's statement of reasons for allowance: the prior art fails to show or suggest a receiver comprises a hard-decision unit which makes a hard decision per sub-carrier on a signal point based on a demodulated signal to generate a hard-decision signal; a replica generation unit which uses the hard-decision signal to generate a replica signal per sub-carrier; and an inter-carrier interference suppression unit which adds a difference between the hard-decision signal and the replica signal to the demodulated signal to suppress an inter-carrier interference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
